2009 PRODUCT CATALOGUE

GAINSBOROUGH
designer collection

it all starts

PEACE OF MIND

Gainsborough's products are manufactured to the highest quality standards, allowing us to offer you a 5 year limited tarnish resistant and 10 year limited mechanical guarantee when you purchase any of our products within the 'designer' architectural range.

at the front door

Gainsborough has combined cutting edge design trends with new styling concepts to provide you with innovative door solutions to use throughout your home. Whether you're building a new home, or simply wanting to revamp the style of your home with a renovation, Gainsborough's superior selection of fine quality door hardware will have something for you. Achieve a designer décor look by selecting from one of our inspirational new ranges.

Make a stunning impression by choosing from our premium range of architecturally designed entrance solutions found on each of the range pages, and complement your front door choice with matching levers and accessories to provide a coordinated solution throughout your home. It's as easy as 1, 2, 3...

- 1 Choose an entrance solution for your front door from one of our five ranges.
- 2 Choose matching lever styles to co-ordinate throughout your home.
- 3 Complete the styling solution by choosing from our range of matching accessories.

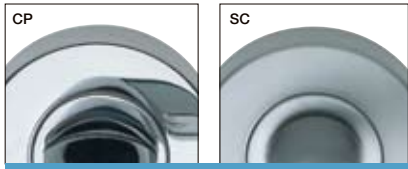

we've made it easy

Gainsborough has created five unique ranges of designer door furniture.

Define your sense of style by selecting a range solution that reflects your personality and complements your home.

You'll make a stylish entrance every time when you select from Gainsborough's range of door furniture.

streamline

The Streamline range offers contemporary finishes, enabling you to achieve the right match for your home. Choose from the popular **satin chrome** – a fashionable matte finish, or opt for a more striking high lustre **bright chrome** finish.

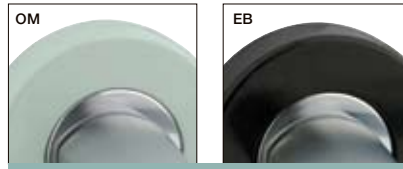

CP BRIGHT CHROME SC SATIN CHROME

accent

The Accent range combines stylish new lever designs with the striking **brushed satin chrome** finish to create a bold statement for the modern home. Accent also incorporates pull handles in **stainless steel**, offering greater variety when choosing your entrance solutions.

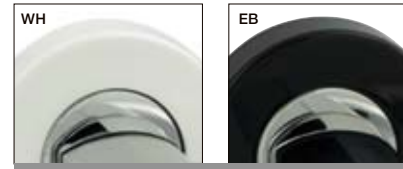

BSC BRUSHED SATIN CHROME SS STAINLESS STEEL

synergi

The Synergi range features an inspiring selection of solutions with **ocean mist** and **espresso black** coloured rosettes accenting timeless **bright chrome** and fashionable **satin chrome**.

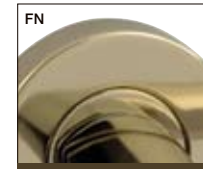

OM OCEAN MIST EB ESPRESSO BLACK

couture

Couture offers a truly distinctive, style-savvy solution combining striking lever styles on **espresso black** and **white** rosettes with the high gloss finish of **bright chrome**.

WH WHITE EB ESPRESSO BLACK

estilo

The Estilo range introduces **fusion** – a unique, sophisticated and exciting new finish from Gainsborough. Fusion is a combination of bright chrome with subtle gold undertones creating a soft, lustrous finish.

FN FUSION

Adopt a minimal modern approach with Streamlines range of clean and contemporary styling. Choose from three entrance solutions and select from Streamlines simple and stylish range of products to suit any modern home.

If you're still asking yourself *'what is a...?'*, just refer to our simple product glossary to help guide you through some of Gainsborough's product details. If you can't find it here, simply visit www.gainsboroughhardware.com.au/index for a full glossary of terms.

TRILOCK

Trilock Technology combines the latest in door hardware design with world renowned 3 in 1 locking technology, offering the security and convenience of the unique combination of lockset, deadbolt and passage functions all combined into one lock.

1. Lockset with safety

Depressing the snib button on the internal face of the Trilock engages the lockset mode. This locks the door from the outside, however it is safe to exit without a key in an emergency by simply turning the inside lever.

2. Deadbolt security

Trilock houses a key-operated double cylinder deadbolt, with a sturdy 20mm throw, to keep possessions and valuables safe whilst the home is unoccupied. (Single cylinder version features inside turn-button.)

3. Passage set convenience

When Trilock is unlocked and unsnibbed, it operates as a standard passage set, allowing free access in or out of the home.

MORTICE LOCK

A lock designed to be recessed into the edge of a door, rather than being mounted to its surface. It provides versatility for door furniture application.

ESCUTCHEON

An escutcheon is a backplate that offers a decorative surround for a keyhole, enabling you to match backplate of lever styles with an escutcheon for your front door.

SLIDING BOLT SET

A sliding bolt set offers an internal privacy locking function for sliding doors. It incorporates a latch, internal turnbutton escutcheon and external emergency release escutcheon.

AUXILIARY PRIVACY SET

Normally installed above passage leversets to add privacy locking for internal doors, an auxiliary privacy set incorporates a privacy bolt, internal turnbutton escutcheon for locking, and external emergency release escutcheon when needed for peace of mind.

PRIVACY ADAPTOR

A privacy adaptor is an economical and clever way to add internal privacy locking to any of Gainsborough's levers in the 'designer' architectural range. Its innovative, one piece design is installed with the lever. Panic release from the inside by pulling the lever and emergency access from the outside when needed provides peace of mind.

REBATE KIT

A rebate kit allows you to fit a mortice lock to a rebated door set when required. Perfect for use on rebated double doors.

EXTENDED STRIKE PLATE

Used on wider door frames to compensate for a thicker doorjamb.
