Designed for impressive style and functionality, the Gainsborough Home Collection is ideal for new homes and renovations.

High quality electrophoretic and electroplated finishes are used for appeal and durability – full details of guarantees by product are covered within this brochure. Gainsborough places emphasis on the design and manufacture of exciting new products to meet the needs of today's decorating and security trends.

The special keying facilities will accommodate the most complex of keying requirements, from master keyed to great grand master keyed systems.

Gainsborough is committed to producing the finest quality products, having renewed its certification

under the ISO 9001:2000 Quality Management System.

# Trilock '3 in 1' Security

Lockset, deadbolt and passage functions all locked into one set.

#### Lockset with safety

Depressing the button on the inside of the door engages the Trilock lockset mode. This locks the door from the outside, however it is safe to exit without a key in an emergency by simply turning the inside knob or lever.

Trilock houses a key-operated double cylinder deadbolt, with a sturdy 20mm throw, to keep possessions and valuables safe whilst the home is unoccupied. (Single cylinder version features inside turn-button.)

#### Passage set convenience

When Trilock is unlocked and unsnibbed, it operates as a standard passage set, allowing free access in or out of the home.

### Each design within the Trilock Traditional and Trilock Contemporary Series is available in Double Cylinder, Single Cylinder and Dummy versions, as detailed below:

side

Double Cylinder: Key from either side will lock or unlock deadbolt.\*

Single Cylinder: Key from outside or turn-button Dummy Set: A non-operational handle from inside will lock or unlock deadbolt.\*

set for the fixed side of a double door.

\* Also features other functions: • Push-button lockset mode • Passage set convenience when unlocked and unsnibbed (see '3 in 1' above).

# Trilock series

'3 in 1' locking – ideal for exterior doors

# security & innovation

The Gainsborough Trilock Series includes the original Trilock Traditional Series as well as the latest offering, the Trilock Contemporary Series.

The Trilock Contemporary Series features modern escutcheon plate and handle styling, whilst the Trilock Traditional Series is more classically styled, incorporating perimeter design lines on the escutcheon plates and handles.

Products feature the unique Trilock '3 in 1' locking mechanism of lockset, deadbolt and passage functions all in the one lock. This technology is also the recipient of an Australian Design Mark for Good Design.

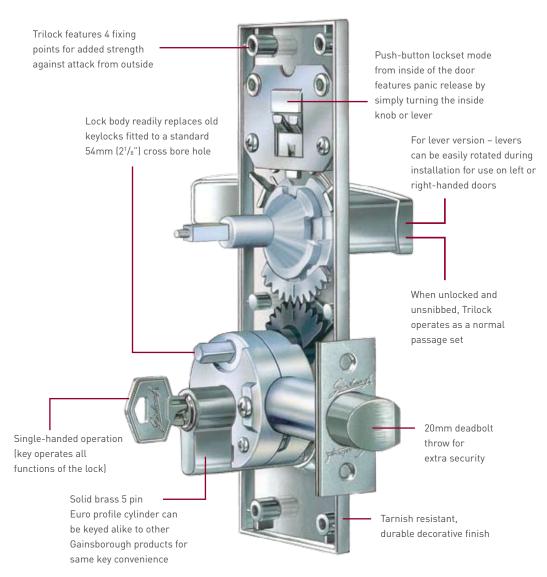

Developed and manufactured in Australia, the Trilock Series features world class tarnish resistant finishes, single-handed operation (key can operate all functions of the lock) and a 20mm deadbolt throw for extra security when in the deadbolt mode.

Choose from double cylinder, single cylinder and dummy functions, as detailed in this section.

# Features of the Trilock Series

• 60mm Backset • Suits doors 33-45mm thick

#### **Australian Design Mark**

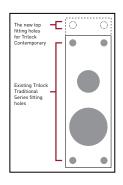

The Trilock '3 in 1' Locking mechanism has been awarded with an Australian Design Mark for Good Design by Standards Australia.

orough

Gainsl Licence No. 96313 Standards Australia

#### **Easy Update Feature**

The Trilock Contemporary Series will readily replace the Trilock Traditional Series. Simply remove the existing Trilock set and drill two new top fitting holes. Then install the new Trilock Contemporary set, which features higher escutcheon plates to conveniently cover the old fitting holes.

The Gainsborough Trilock Contemporary Series combines the latest in door hardware design with the Trilock '3 in 1' locking technology.

This series expands on the Trilock Traditional Series and features an impressive array of stunning design options, styled for today's building and renovations.

Higher escutcheon plates create greater visual impact and presence on the door and feature

convex styling, aesthetic design grooves and contoured cylinder surrounds. The rectangular push-button on the inside escutcheon plate further contributes to the modern feel.

The concealed fixing enhancement on the external escutcheon plate provides a smooth and modern look.

Available in knob or lever versions, the Trilock Traditional Series combines timeless styling, advanced engineering principles and tarnish resistant, durable decorative finishes.

Featuring the unique '3 in 1' Trilock technology of lockset, deadbolt and passage functions all combined into the one set, the Trilock Traditional Series offers the option of elegant perimeter design lines on the escutcheon plates and handles, adding class and appeal to the exterior doors of today's homes.

#### Extended Strike Plate to suit Trilock Series

An extended strike plate is now available to facilitate the installation of Trilock Contemporary or Trilock Traditional on a pivot door.

# knob & lever locksets & deadbolts

ideal for exterior doors\*

\*Locksets also available in functions to suit interior doors – see details within. Gainsborough offers an impressive range of knob and lever lockset designs, single and double cylinder deadbolts, combination entry sets and trim plates to complement the home.

Each knob or lever lockset design from the Stronghold or Contractor Series is available in entrance, privacy, passage and dummy functions to coordinate the exterior and interior doors throughout the home.

Stronghold and Contractor Series include matching single and double cylinder deadbolts for additional

security. The Innovator Series provides a contemporary and modern style deadbolt in standard or narrow throw versions, in either single or double cylinder functions. Deadbolts can be combined with entrance sets and matching trim plates for a stylish and secure result.

The Stronghold Series Combination Entry Sets provide the perfect solution for a stunning entrance.

Products are available in a range of durable, tarnish resistant finishes.

## **Stronghold Series – Locksets**

Stronghold locksets are available in entrance, passage and privacy functions as well as matching dummy knobs, and can be specified in a range of finishes.

Combination entrance lock and deadbolt sets are also available, keyed alike.

\* Where listed, LB (Lifetime Brass) is guaranteed against tarnishing during the normal life of the product.

# mortice locks & pull handles

ideal for exterior doors

A selection of mortice locks are available to combine with Gainsborough door furniture products. The 755 or 655 Series Mortice Locks offer the convenience of both latchbolt and deadbolt functions in the one lock. The latchbolt is operated by the selected door hardware and the deadbolt by either key or turn-button, depending on the function specified. Choose between single cylinder and double cylinder versions. In the case of the 755 Series, the latchbolt can also be operated by a key for the convenience of one-handed entry. The 775 Series Roller Bolt Mortice Lock (double cylinder) incorporates both roller bolt operation and key operated deadbolt, and is an ideal product for use in conjunction with pull handles such as the popular Gainsborough Architectural 600mm Stainless Steel Pull Handles.

The 760 Mortice Lock encompasses a butterfly claw action deadbolt to suit sliding doors.

Accessories, including rebate kits, are shown with the relevant mortice lock series for your convenience.

## **655 Series Mortice Lock**

For use in conjunction with Contractor 700 series leversets on 53mm round rosettes; or Architectural 9400 stainless steel series or 9600 series leversets on 55mm round rosettes.

Includes spring-latch and a 14mm deadbolt throw for added security.

Offers compact design and durable construction. Available in either 57mm or 45mm backsets.

## 755 Series Mortice Lock

Features a spring-latch and double throw 20mm deadbolt for added security. \*

Choose from 25mm, 30mm, 40mm, 50mm and 60mm backsets.

\* Note: 25mm and 30mm backset versions feature single throw 14mm deadbolt.

### 757 Rebate Kit

Note: The above Architectural 9200 Series Pull Handles, together with other pull handles, are also detailed in the Gainsborough Architectural Hardware range brochure.

# security & patio door locks

ideal for exterior security and sliding patio doors

The Gainsborough range includes a selection of security products to suit sliding patio doors and hinged or sliding security screen doors.

The highly functional YR Series Sliding Patio Door Locks are designed for glass sliding patio doors and are available in either single or double cylinder versions.

Security Screen Door products include the Hinged Security Door Deadlock and the Sliding Security Deadlock. A Pneumatic Door Closer is also available for use in conjunction with the Hinged Security Door Deadlock on hinged security doors.

The stylish new Gainsborough Patio Bolt is also featured in this section, and is designed to provide secure auxiliary locking on sliding or hinged aluminium or timber doors.

The Security and Patio Door Lock range includes popular finishes and colours to complement the relevant door concerned.

# security & patio door locks

# **Sliding Patio Door Deadlocks**

Suitable for most aluminium and timber sliding patio doors, these deadlocks feature modern, ergonomic styling and robust design.

YR4050 Single Cylinder Deadlock BL **PR** WH

YR4550 Double Cylinder Deadlock BL **PR** WH

# Patio Bolt

The new Gainsborough Patio Bolt is designed to suit aluminium or timber sliding or hinged doors.

This contemporary styled product features a 5 pin Gainsborough keyway (to facilitate keying alike with other Gainsborough products), concealed fixing for tamper resistance and a 10mm diameter locking bolt for added security. The locking bolt is also reversible to suit left or right-handed doors.

Relevant strike boxes and strike plates are included in each pack, together with a 5mm packer to align the main body with the strike plate or frame (if required).

Choose from an exciting range of colours and finishes. (Single and twin packs available).

# Security Deadlocks and Door Closers

The range of Gainsborough hinged and sliding security screen door deadlocks can be keyed to other products in the Gainsborough range. Pneumatic door closers are also available to suit hinged security doors. Choose from a wide range of durable, powder coated finishes.

# modern leversets

ideal for interior doors\*

Image above depicts future version of the Decorator 900 Series, with concealed fixing on the external rosette.

\* Certain designs can be combined with a mortice lock for exterior doors. The Gainsborough Home Collection features modern and contemporary lever designs, styled to suit today's new homes and home improvements.

Choose from the Contractor 700 Series on 53mm Round Rosettes, the Contractor 100 Series on 63mm Round Rosettes, the Residence S100 Series Stainless Steel on 63mm Round Rosettes, the Decorator 900 Series on 65mm Round Rosettes or the Nouvelle 400 Series on Long Plates.

Levers feature popular, tarnish resistant plated finishes to complement the home's décor.

The Residence Series features 304 Grade Stainless Steel levers and rosettes for style and durability.

All series include passage sets to suit general interior doors where no locking is required. The Contractor, Residence and Nouvelle Series all offer privacy sets (for bedroom or bathroom doors) with internal locking, auto exit from inside and emergency access from outside; and the Decorator Series provides this privacy function by combining a privacy adaptor with a passage set. Matching dummy levers are also available in each series.

### **Contractor 700 Series**

The Contractor 700 Series offers a range of leversets on 53mm round rosettes, designed to complement current interior styling. Choose from a variety of fashionable finishes as detailed under each lever below. The range is available in passage, dummy and privacy leversets. The privacy leversets, with integral privacy latch, are designed to suit bedroom or bathroom door applications. An auxiliary privacy set is also available, as shown.

## **Contractor 100 Series**

The Contractor 100 Series leversets on 63mm round rosettes features four stylish lever styles for today's homes.

Designed to suit a 50mm or 54mm diameter hole through the door face, the 100 Series Contractor leversets are ideal for home improvement and renovation activities.

Passage sets suit non-locking interior doors.

Passage sets in Visual Pack include the popular Gainsborough dual sprung self-aligning 480 series tubular latch for firm action and soft close.

Privacy sets include a privacy latch to allow internal locking for bedroom or bathroom doors.

Matching dummy levers are also available to suit wardrobe or cupboard doors.

#### Privacy Function for Contractor 700 & 100 Series

Privacy Function for Bedrooms and Bathrooms. The Contractor Series can be specified as a privacy function – with a privacy button on the inside, panic release from the inside and emergency access from the outside.

# modern leversets

The Decorator Series, the ultimate choice in leversets, offers a total of seven lever designs on 65mm stepped round rosettes, all styled to add class and appeal to doors throughout the home.

The series includes the Angular and Precise designs, which feature lever styling to coordinate with Trilock Contemporary Series leversets, creating a stunning design theme.

Leversets can either be combined with a 480 series tubular latch for interior doors, or

can be installed with the 755 series mortice lock for exterior doors.

Passage or dummy options are available in all lever designs shown. For bedroom or bathroom doors, add a '9009' privacy adaptor to a passage leverset to provide internal locking, panic release from the inside and emergency access from the outside.

Decorator 900 series leversets suit a 50mm or 54mm diameter hole through the door face.

# porcelain & decorative knobs

ideal for interior doors

The Gainsborough Home Collection also incorporates a range of decorative knobs to complement interior doors throughout the home.

Manufactured in Australia, the Gainsborough Classic Porcelain Series is offered in a variety of porcelain colours, perimeter patterns as well as a floral option. Popular backplate finishes are also featured across the range.

The Connoisseur Collection includes an exquisite array of porcelain knobs on white backplates to recapture the beauty of yesteryear. For an alternative design, choose the popular Gainsborough Contractor Porcelain Series, styled in a tulip shape and available in a range of porcelain colours and backplate finishes.

For privacy locking, add a 309 privacy adaptor to a passage set from the above series, for inside locking, auto egress from inside and emergency access from outside.

Dummy, wardrobe knobs and cupboard knobs are available in certain series, where listed or shown.

## **Classic Porcelain Series**

Our elegant porcelain door knobs are manufactured in Australia and are double fired using the finest local clay blends and glazes. They are produced in white and delicate pastels, with an additional range of decorative perimeter patterns and a tasteful floral design. Backplates include Bright Goldtone, Bright Chrome and other stylish finishes.

# sliding cavity door sets

ideal for interior sliding cavity doors

Gainsborough offers a range of sliding cavity door sets and accessories to complement interior sliding cavity doors throughout the home.

The stylish and innovative Circular Sliding Cavity Door Sets are offered in privacy, passage and connecting sets to suit a variety of door applications. Privacy sets are locked or unlocked with turn-button from inside and feature emergency access from outside - ideal for bathroom/ensuite doors. Connecting sets are locked or unlocked with turn-button from either side to suit connecting doors between rooms in the home. Passage sets are ideal for use where no locking is required. A Square Sliding Cavity Door Lock is also now offered in a privacy function only. The innovative 398 Box Staple allows for locking where the door slides adjacent to the wall.

The original and economical Rectangular Sliding Cavity Door Locks remain an alternative option in both passage and privacy functions, as detailed within.

A range of attractive metallic finishes are offered in each series.

# sliding cavity

### Square and Circular Sliding Cavity Door Sets

Gainsborough offers the Circular Sliding Cavity Door Sets in privacy, passage and connecting functions and the new Square Sliding Cavity Door Set in privacy function only\*. All products suit a 54mm diameter hole through the door face for quick and easy installation.

The privacy and connecting locks also feature a hinged pull-tab on the face plate which can be raised to pull door closed from within cavity. All sets suit doors 32mm–45mm thick.

#### 385 Square or 395 Circular Privacy Lock<sup>+</sup>

Lock or unlock with turn-button from inside; emergency release from outside. Ideal for bathroom/ensuite doors.

#### 396 Circular Passage Set<sup>+</sup>

Non-locking for general passage operation.

#### 397 Circular Connecting Lock<sup>+</sup>

Lock or unlock with turn-button from either side.

#### 398 Box Staple<sup>+</sup>

Use in conjunction with 385 Square or 395 Circular Privacy lock or 397 Connecting lock where the door slides adjacent to wall (no cavity). The box staple is affixed to frame/architrave and protrudes to allow latching on door closure.

\* Square version will also be available in passage and connecting functions – estimated to be available late 2008.

<sup>+</sup> Champagne Nickel available in Circular version standard pack only.

### **Rectangular Sliding Cavity Door Locks**

#### 393 Privacy Set

Internal locking and emergency release.

#### 394 Passage Set

Non-locking for general passage operation.

See page 39 for Flush Pulls & Ring Flush Pull.

# weatherseals

# seals and weatherstrips for doors and windows

Gainsborough offers a fine selection of quality door seals and weatherstrips to cater for a variety of applications.

The Gainsborough Door Seal range includes a selection of products designed for either exterior or interior door applications or both. Choose from Rolling, Brush, Automatic, Storm and Rubber door seal versions.

The Gainsborough Weatherstrip range is ideal for surrounding doors and windows and includes Foam, Rubber and Pile varieties.

# **Door Seals**

#### Rolling

GS1 is recommended for interior doors. Suits hinged, inward opening, single or double doors. Protects against draughts, cold, heat and dust. Fits doors 800mm to 915mm wide. To suit gaps up to 19mm. Rollers for smooth action. Easy to fit with fixing brackets provided. Available in grey – Visual Pack.

#### Brush

GS2 is recommended for interior and exterior doors. Suits hinged, inward or outward opening, single or double doors. Also suits sliding doors and security/screen doors. Protects against draughts, cold, heat, dust and insects. Fits doors up to 915mm wide. To suit gaps up to 19mm. Hard wearing polypropylene brush. Available in gold, bronze and silver – Visual Pack.

# weatherseals

# Door Seals (continued)

#### Automatic

GS3 is recommended for exterior doors. Suits hinged, inward opening, single doors. Protects against draughts, cold, heat, dust and insects. To suit gaps up to 16mm. Automatically lifts as door is opened to clear carpet and seals on door closure. Aluminium construction, durable rubber. Choose from 915mm or 1220mm lengths in gold, bronze and silver finishes – Visual Pack.

#### Storm

Recommended for exterior doors, the GS4 Stormproof weatherseal suits hinged inward or outward opening, single or double doors and protects against draughts, cold, heat, dust, noise, rain and insects. Features 2 piece aluminium construction and durable rubber for tight sealing. 915mm length available in gold, bronze and silver finishes – Visual Pack. 825mm, 915mm and 1750mm lengths are also available in Standard Pack in mill and bronze finishes. Note: 825 and 1750mm lengths in Standard Pack are also available in gold finish.

#### Rubber

GS5 is recommended for interior and exterior doors. Suits hinged, inward or outward opening, single or double doors. Ideal for hinged security/screen doors. Protects against draughts, cold, heat, dust and insects. Fits doors up to 915mm wide.

To suit gaps up to 12mm. Aluminium construction, durable rubber. Available in gold, bronze and silver – Visual Pack.

#### Weatherstrips – Self Adhesive

#### Foam

GS20 foam is recommended for door and window surrounds. Suits hinged doors and windows. Protects against draughts, cold, heat, dust, noise and insects. Length 5 metres. Suits gaps 1mm-5mm. Available in white or brown – Visual Pack.

#### Rubber

Recommended for door and window surrounds. Suits hinged doors and windows. Ozone and U.V light resistant. Protects against draughts, cold, heat, dust, noise, rain, insects and rodents. Choose from GS30 ('P' version) for gaps 3mm-5mm; and GS31 ('E' version) for gaps 1.5mm-3mm. Both versions are 5 metres in length (2 x 2.5m strips), and are available in white or brown – Visual Display Box.

#### Pile

GS40 Pile is recommended for door and window surrounds. Suits hinged doors and sliding doors. Also suits hinged windows and sash windows. Protects against draughts, cold, heat, dust and insects. Length: 5 metres. Suits gaps 1mm-3mm. Available in brown – Visual Pack.

## Handing

Some of our door furniture products are handed.

To assist you with identifying the required handing,

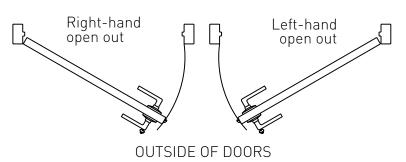

please refer to this simple diagram for an explanation.

Note: For selection of left or right-handed 757 rebate kits, please refer to the handing information diagram shown on page 18. For selection of left or right-handed extended strike plates to suit the 775 series roller bolt mortice lock, please refer to the handing diagram shown on page 19.

OUTSIDE OF DOORS

**OPEN-OUT DOORS** 

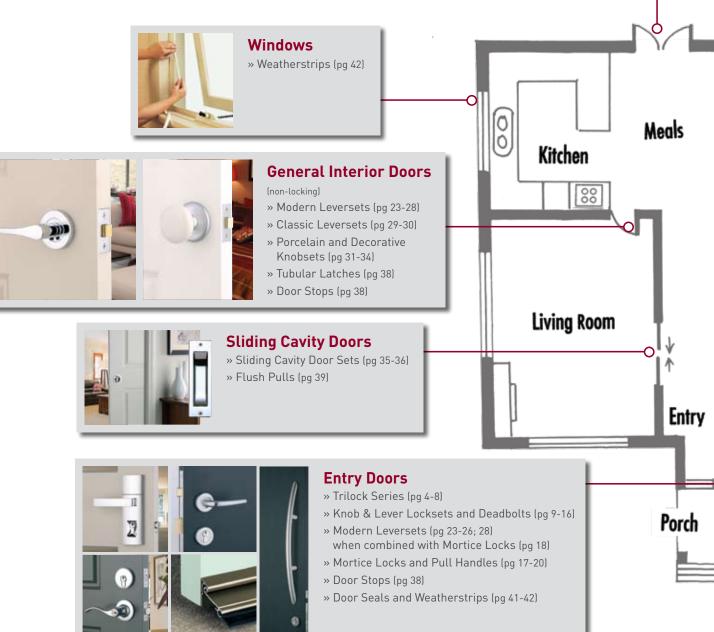

## **General Information**

**Safety Notice:** For double cylinder function, we recommend that you do not keylock from the inside of the door when occupants are inside. If you choose to do so, ensure key is readily accessible and operable by all persons who may need to exit the building in an emergency. Ensure occupants know how to operate lock and keys to gain immediate exit.

# choosing the right products for your home

# Gainsborough offers a broad range of products to suit applications throughout the home.

The following shows a house plan, and serves to indicate the Gainsborough products available to suit the relevant door or window in the home. Page numbers are also shown adjacent to the products concerned, in order to provide you with an easy to find reference guide.

# Types Of Door Functions:

**Entrance:** For exterior doors (internal locking, key access from outside)

**Passage:** For general interior or hallway doors (non-locking operation)

**Privacy:** For bedroom or bathroom doors (internal locking, emergency access from outside)

**Dummy:** For wardrobe and cupboard doors (fixed lever or knob for pull operation only)
